

## Sliding Gate Operator SGO-60

### Features

- AC/DC motor with built in control panel.
- All metal gears make it durable and long lasting for medium duty gate application.
- Soft start and soft stop(optional).
- Resistance sensitivity and auto-closing delay time adjustable.
- Stop/Reverse in case of obstruction during gate opening/closing.
- Reliable mechanical spring limit switch or magnetic limit switch optional.
- Aluminum alloy base suits for all kinds of tough environment.
- Manual override in case of emergency or power failure.
- Back up battery and solar system are available for DC version.
- 12 months guarantee; lifelong post sales service

### Dimensions

### Specification

Rated Voltage	: 220V±10%
Electric Motor	: 220VAC
Rated Motor Power	: 250W
Gear Modulus	: M=4
Max Loading Weight	: 600KG
Open/Close Speed	: 11m/min
Output Speed	: 50r/min±10%
Output Torque (N.m)	: 16N.m
Limit Switch Type	: Spring/Magnetic limit switch for optional
Max.Pull Force	: 1200N
Working Temperature	: -20°C~+55°C
