

## All In One License Plate Recognition Device

**B-019D**

### Dimension

### Specification

Output voltage	: AC220V
Rate power	: 12W
Exposure distance	: 3-20meters
Light sensor feature	: Below 30LUX, instantly lit up Higher than 30LUX, delay 3 minutes to turn off the light
Features of the controller	: The switch on and off is controlled by The German relay, which is stable and Reliable.
Lamp bead type	: 12PCS high brightness white light chip
Light Angle	: 45 degrees
Anti-glare treatment	: Acrylic anti-glare optical lens + Photocatalyst anti-glare grating
Protection grade	: IP65
Shell material	: Tempered glass, die-cast aluminum
Light weight	: 0.8KG
Light dimension	: 180 x 140 x 55mm
